

Renewal FAQ's

The Saskatchewan Association of Medical Radiation Technologists Act, 2006 requires you to renew your registration every year. Every member of the Association must complete the annual registration renewal in order to:

- Continue practicing as a Medical Radiation Technologist (MRT) in Saskatchewan; or
- Continue on non-practicing or associate status to stay in good standing; or
- Resign in good standing.

Some members choose to change their registration type effective January 1st of the incoming new year.

You can complete your renewal process through the SAMRT online renewal system from October 11- November 30 by logging in to the SAMRT member portal. Renewing your registration involves answering declarations to verify your practice hours, continuing education credits, professional liability insurance, and paying an annual registration fee.

It is your responsibility to ensure you complete your renewal every year on time.
